**About Myself**

When I am not in front of the computer designing I do like to get out and breathe a little fresh air. I am an active person who enjoys going to the gym and mountain biking. I really enjoy meeting new and interesting people as I am a very sociable person.

Since moving to London I have found so much more to do with my time. On the weekends I do like to have a stroll around various areas of the city as there is so much to see and get inspired from. I am very passionate about my work and I am very keen to learn more in my favored subject.

My goals in life are to be the best I can at what I enjoy doing and web design has given me an exciting and challenging path to do so.
